SUMMARY

Computer Science student with hands-on experience across web development, AI/ML, Generative AI, databases, and data visualization. Built full-stack applications with React and Node.js, a deep-learning cybersecurity system, and analytics dashboards used by a 4-branch café chain. Strong fundamentals in data structures, algorithms, DBMS, and operating systems. Seeking an opportunity to learn, contribute, and grow as a software engineer.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL, HTML, CSS

Web Development: React, Node.js, Express.js, REST APIs, JWT Authentication

AI / ML: Machine Learning, Generative AI, TensorFlow, Scikit-learn, Google Gemini API

Data & Databases: MySQL, SQLite, Pandas, NumPy, Power BI, Excel, Plotly.js, Chart.js

CS Fundamentals: Data Structures, Algorithms, DBMS, Operating Systems, Computer Networks, Probability & Statistics

Tools: Git, GitHub, Vercel, Google Sheets

PROJECTS

PlantAI — AI-Powered Plant Disease Detector | *React, Vite, Node.js, Express.js, SQLite, Google Gemini API, JWT, bcryptjs*

- Built an app that detects plant diseases from images, live camera input, or symptoms using Google Gemini, with user authentication, history storage, and an admin dashboard.

Smart Café Analytics — AI-Powered Business Intelligence System | *Node.js, SQLite, JavaScript, Plotly.js, Chart.js, HTML, CSS*

- Developed a full-stack analytics and POS platform for a 4-branch Hyderabad café chain (35+ products) with interactive dashboards for product performance, revenue, and business insights.

Cyberattack Detection in Industrial IoT | *Python, Django, TensorFlow, NumPy, Pandas, Scikit-learn, MySQL*

- Built a deep-learning application to detect cyberattacks in Industrial IoT, with authentication, prediction, and visualization.

Gemini Chatbot | *Python, Google Gemini (2.5 Flash)*

- Built a Python conversational chatbot with conversational context using Google's Gemini 2.5 Flash model.

Personal Budget Tracker | *HTML, CSS, JavaScript*

- Built a responsive web app for tracking income and expenses through a simple, user-friendly interface.

EDUCATION

B.Tech, Computer Science & Engineering — Vignan's Institute of Management and Technology for Women 2023 – 2027

CGPA: 7.32 / 10 · VI Semester SGPA: 7.5

Intermediate — Omega Junior College for Girls 2020 – 2023

CGPA: 6.1

SSC — Mother Teresa Co-Ed High School May 2020

CGPA: 8.8

CERTIFICATIONS

- Generative AI: Build AI Apps with LLMs & Generative Models — GUVI | HCL
- Artificial Intelligence Fundamentals — IBM SkillsBuild
- Machine Learning and Image Processing — Zikshaa / NASSCOM Foundation
- Python Essentials 1 — Cisco Networking Academy (May 2026)
- User Experience (UX) Design with AI — IIT Hyderabad (IITH), March 2025
- Full Stack Development with MEAN; HTML & CSS; Flutter; Mobile App Development; CAD and 3D Printing — Zikshaa / NASSCOM Foundation
- Customer Engagement (Problem Solving & Process Controls; Communication & Personality Dynamics) — IBM SkillsBuild

ACHIEVEMENTS & ACTIVITIES

- Volunteer, Innovation Mela 2025 (thingQbator / NASSCOM Foundation) — received a Certificate of Recognition.
